

Pay & Benefits Philosophy

	<p>Our Total Rewards Program is built on principles of recognition, well-being, and equity. We believe that creating a comprehensive Total Rewards package for our team members not only supports those who work here, but our families, our patients, and our communities.</p>
	<p>We value and reward individual and team achievements through promotions, wage increases, incentives, and pay equity. We pay our team members fairly for the work they provide and use available resources to ensure that we stay competitive in the marketplace.</p>
	<p>Our benefits package is well rounded and provides diverse options at fair and reasonable rates with choices that meet the individual needs of our team members.</p>
	<p>We prioritize team member well-being with recognition programs, educational assistance, generous paid time off, and leadership development.</p>
	<p>Ensuring that our Total Rewards program continues to be diverse, fair, modern, and equitable allows us to continue empowering healthcare and enhancing lives.</p>
